STAT

1. Attached is my evaluation on the performances of the individual class members of the DDS&T Career Development Course No. 19.

2. As I had mentioned to you in my correspondence of 5 January 1981, the class members of CDC No. 19 were an outstanding group of intelligence officers. They were excellent representatives from the Agency, and I was quite proud to have been in association with them.

3. Finally, I would like to commend the S&T Offices for their judgment and wisdom in the selection of such fine and upstanding officers. I hope they continue to identify such outstanding professionals.
